

**URGENT**  
**OPPOSE OPWDD RESIDENTIAL CUTS WITH ONE CLICK!**

**OPWDD has proposed almost \$250 million in cuts\* for certified IRA and ICF residential programs!**

**These proposed OPWDD cuts will devastate residential programs** and will result in a loss of residential beds, longer waiting lists, and fewer options for those living at home with their families. Some providers will go out of business. Many providers will have to cut staff – and quality of services – just to survive.

Specifically, these cuts will eliminate reimbursement to providers for beds that are vacant (most due to COVID-19 deaths) and slash reimbursement in half for days when individuals are in hospitals or home with their families. Providers serving people with high medical or psychiatric needs will be hurt the most!

**These cuts are particularly cruel in the wake of COVID-19**, when providers have spent enormous sums of money to protect our individuals, with not a single cent of reimbursement from OPWDD.

**Take action right now to stop these cuts!**

**Go to [www.cpstate.org/advocacy](http://www.cpstate.org/advocacy)<<http://www.cpstate.org/advocacy>> to oppose the OPWDD proposed IRA & ICF residential program cuts with just one click!**

Thank you!
